

SENECA COUNTY OPPORTUNITY CENTER

senecadd.org

March 1, 2026

Dear Seneca County Community Members, Individuals, and Families,

As we recognize Disability Awareness Month, the Seneca County Board of Developmental Disabilities proudly joins individuals, families, advocates, providers, and community partners in celebrating the abilities and contributions of people with developmental disabilities throughout Seneca County.

This year's theme, **"Stronger Together: Your Support Matters,"** reminds us that meaningful inclusion is built through partnership, advocacy, and community commitment. Individuals with developmental disabilities are valued members of our community whose talents and perspectives enrich our county every day.

We remain dedicated to serving with dignity and respect while promoting independence, self-determination, and access to high-quality supports and services. Guided by the voices of individuals and families, we will continue working toward a Seneca County where inclusion is the standard, opportunities are accessible, and every individual is valued.

With appreciation and renewed commitment,

Erin Simmons
